

JAINIKKUMAR PATEL

9409632334 | jainikpatel824@gmail.com

Summary

Dedicated and skilled **Computer Engineering graduate** with hands-on expertise in **full-stack web development** and a strong foundation in **JavaScript, React, Node.js, Express, and MongoDB**. Successfully led the development of complex projects, including **Propluse**, a freelancing marketplace, and a **research center web application** for a USA-based client. Proficient in building scalable, secure, and user-friendly web solutions, from front-end interfaces to back-end APIs, with deployments on platforms like **AWS**. Skilled in optimizing performance, implementing modern design frameworks like **Tailwind CSS**, and integrating payment systems such as **Stripe, PayPal, and Razorpay**. Adept at solving challenging problems, adhering to coding best practices, and staying updated with emerging technologies like **Cloudflare** for web performance and security. Enthusiastic about contributing to impactful projects and advancing in a challenging **web developer role**.

Experience

Sankhyana Consultancy Service | Bengaluru, Karnataka Software Developer | 08/2024 - Present

- **USA Client Project (Research Center Software):** Solely developed a comprehensive software solution using **React, Node.js, Express, and SQL**. Built and deployed the application on **AWS**, including domain management.

Created a **permission-based dashboard**: **Super Admin** can add members and admins.

Admins can add members and manage their data.

Designed **dynamic forms** for institutional distribution and stored data with **65+ columns** in **SQL**.

Implemented a **reporting and filtering system**: Enabled combining form data from multiple institutions with advanced filtering.

Provided tools to view institution lists, give feedback, rate institutions, and blacklist them.

Delivered a scalable and user-friendly solution tailored to the client's research center requirements.

- **Developed 5 Landing Pages for Facebook Ads:** Created **3 landing pages** using HTML, CSS, and JavaScript. Built **2 landing pages** with the MERN stack, leveraging **Tailwind CSS** for responsive design and **Framer Motion** for animations. Integrated **Razorpay** for seamless payment processing.
- **Recruitment Project with Gemini API:** Contributed to a recruitment platform by integrating the **Gemini API** to manage resumes effectively.
- **AI Resume Builder (Backend Development):** Led backend development using **Node.js, Express, and MongoDB**. Developed secure APIs with authentication, subscription management, and payment gateway integration (**PayPal** and **Razorpay**) using webhooks.
- **User Dashboard Development:** Designed and implemented a **React-based user dashboard** with **forgotten-password functionality** and **route-level security features**.

Code Expert Solutions | GJ

Full-Stack Developer Intern | 12/2023 - 04/2024

Spearheaded the development of Propluse, a dynamic freelancing marketplace website using the MERN stack. Implemented key features including user authentication, project management, and payment processing with Stripe. Collaborated closely with team members to integrate front-end and back-end components seamlessly. Optimized performance and user experience, strengthening skills in full-stack development and agile project management.

Tatvsoft

Intern | 05/2023 - 06/2023

During my Summer Internship Developed a Book Store Application using ReactJS. Implemented user interface components and collaborated with team members. Adhered to coding standards and resolved technical challenges. Quickly adapted to the development environment.

Skills

HTML, CSS3/Tailwind CSS, Java Script/TypeScript, Java, Python, React Js, Next.js, Node.js, Express, Prisma, C++, C, MongoDB, SQL, Data Structure, AWS, Docker, Algorithms, cloudflare

Education

G.H. Patel Collage of Engineering & Technology | Anand
Computer Engineering | 05/2024

Parth School of Science and Competition
Science | 05/2020

Certificates

Interactivity with javascript(University of Michigan), Machine Learning with Python(IBM), Intro. to Web
Development(University of California, Davis)
